No Duty to Be Collected on Animals Taken Broad Upon Return.

Washington, D. C., July 26 .- When president Taft this week signed the "lap dog" bill, as it has come to be called, he removed from the Payne-Aldrich bill one of those unhersided jokers which will continue to creep into legislation, for the simple reason that it cannot always be foretold in advance how any certain phrase or clause will be construed. "Not including animals," three words in sec-tion 500 of the Payne bill, caused owners of domestic animals of American origin plenty of trouble in the past two months, following a decision by the court of customs appeals to the effect

that such animals upon reentering the United States must pay duty.

Affected El Paso.

At El Paso, Detrolt, Eagle Pass, Buffalo and other points along both the Mexican and Canadian borders, untold inconvenience was only avoided by the cy of the collectors, for had any ane of them decided to collect duty on animals of American origin returning to the United States, he could have done so, and been backed in his stand by one of the highest courts in the land. But collectors had been advised to waive any such cases for the time being, and the machinery of the govern-ment was set in motion to undo at least this part of the law.

The secretary of the treasury wrote to Mr. Underwood, leader of the house majority, and he brought in an amendment to strike out the three objectionable words. It passed the house July 12 and was passed by the senate July 20. The president affixed his signature this week, and "Not including animals" is no longer in section 500 of the Payne-Aldrich law.

Customs collectors have been notified by the treasury department that dogs, not born in the United States, but im-ported from any of the countries of North America, are not subject to an import duty.

povers at Yuma, Casa Grande and El Paso are about to be arranged in the itinerary of secretary Fisher of the interior department, after he re-turns from his Alaskan trip. Dele-gate Ralph Cameron is very active in this matter and tried very hard to get Mr. Pisher to visit the southwest on his outgoing trip, but could not do so. Mr. Cameron is very anxious that Yuma be visited, now that it is the scene of activity through the efforts of the reclamation service, while the res-idents of the Casa Grande valley have asked in a monster petition to have the secretary visit their valley. El Paso, through the chamber of commerce, has long been at Mr. Fisher to visit that section, and Mr. Cameron is seconding El Paso's request in every way possible.

To Honor Bujac. A bill has been introduced in congress by delegate W. H. Andrews, of New Mexico, to honor second Lieut E. P. Bujac, of Carlsbad, with a congressional medal for distinguished and gallant action in being the first man over the trenches at the battle of Tagnadin mountain, in northern Luzon, Dec. 4.

Mr. Andrews has also introduced a bill to pay Geronimo Baca, former postmaster at Clyde, N. M., the sum of \$72.26, to reimburse him for a similar payment made by him to the government on account of a robbery of the Clyde postoffice in 1908. Baca had to make the amount of the loss good to the postoffice department, and it is claimed he was in no way to blame for

the robbery.

The chamber of commerce of Pres ott, Ariz, has invited president Taft ern trip, but the president informed the Arizonans that he would be unato visit that city on his coming westble to do so, because he would not go

A pension of \$15 a month has been granted to John A. O'Rourke, East Las Vegas, N. M., commencing July 10,

Postal Changes.
An attempt is being made to estab lish a mail route between Globe as Kelvin, Ariz. At present, mail from Globe to Kelvin goes by railroad via Bowle, Maricops and Phoenix, traveling over 500 miles to reach its destination It is claimed that the proposed route over the Pinal mountain road would be much shorter in point of miles and

ne and would prove much more satlafactory to the residents of Kelvin, Ray and lower Gila river points. Delegate Cameron has interested himself Jay M. Gates has been appointed postmaster at Chloride, Mohave county, Ariz., vice J. H. Ware, Wm. F. Ashby has been appointed

postmaster at Prairie Home, Eccounty, Texas, vice S. R. McLean. Lena Gercken has been appointed postmaster at Vernon, Colfax county, N. M., vice C. C. Brown.
Wesley F. Fish has been appointed postmaster at Regina, Sandoval coun-

DOGS EL PASO ELECTRIC

Net Profits Nearly 27 Percent Per Annum on \$655,000 Revenue.

company are increasing steadily at the of more than \$40,000 per year. Few traction and light companies in the United States can show a more remarkable record of increasing business and increasing and generous profits. In fact, United States census reports show that the local system is one of the four most profitable in the country, judged by the investment and the number of cars operated and trips made.

In 1910 the El Paso Electric company carned (revenue) \$640,658. As compared with former years, the showing here given is highly significant: 1909.\$600,958

1908. 227,777 1908, Figures on net earnings and surplus for dividends and betterments are even more striking. Following table shows earnings for the 12 months ending:

Apr. 30, '11 Gross earnings \$655,194 Operating expenses. 381,905 \$624,843 859,327 \$265,516 Net earnings \$273,289 Int. & Taxes..... 98,066

\$164,917 Earnings, after the payment of all operating expenses, interest charges and taxes, for the year ending April 30, 1911, were over three times amount required to pay 6 percent divi-dends on the preferred stock. The common stock pays 5 percent dividend, and there is still a balance of \$70,000 to go to accumulated surplus or undivide profits, and to betterments. In other words, the net profits of the company are nearly 27 percent on the amount of business done certainly few manufacturing concerns or public utilities

can show such a tremendous gain from the operations of the business.

The company has outstanding \$1,000,-600 in 5 percent bonds, \$500,000 in 6 percent notes, \$921,100 in 6 percent preferred stock, and \$1,000,000 in com-mon stock, on which 5 percent per an-num is paid.

Taxpayers Investigate.

Are the people of El Paso going to stand idly by and allow any of their taxpayers and citizens to make such ridiculous remarks without a thorough investigation? Below you will find what has been said and who said it: Mr. George Pence, El Paso, Texas.

Dear Sir.—I have been using your Mexican Herb Hair Tonic for the past two months, with very satisfactory results. At the time I began using it I was suffering from excessive dandruff, which has now entirely disappeared.

I can cheerfully recommend your tonic to any one afflicted with the same

Cloudburst Revealed Wealth.

A cloudburst was the cause of a re-

markable mineral discovery made in

Tasmania a few days ago. Near

Launceston the rush of water cut a

gorge a mile long and of considerable

depth along the side of a mountain.

When an inspection was made of the

havoc that had been wrought it was

seen that hundreds of gold-bearing

quartz veins had been laid bare. A

rush of prospectors to the spot took

place and they are now busily en-

gaged in testing the specimens. An-

other romance of gold mining is re-

ported from Gundagai. A claim

thought to be worthless was sold by

its owner for \$25. The purchaser

making an investigation of his prop-

erty discovered gold in small lumps.

The claim is now said to be worth
